

Reference: Nayara/ENV/EC Compliance Report/20 to 46 MMTPA/2026/1415

23 April 2026

To,
The Deputy Director General of Forests (C),
Integrated Regional Office
Ministry of Environment, Forest and Climate Change,
Block-3, F-2 Wing, 5th Floor,
Karmayogi Bhavan, Sector-10A,
Near CH-3 Circle, Gandhinagar, Gujarat - 382010

Subject: Submission of Six-monthly EC compliance report for expansion of refinery capacity from 20 MMTPA to 46 MMTPA with Petro-chemical Complex by M/s Nayara Energy Limited located at Vadinar, District: Devbhumi Dwarka, Gujarat as on 1st April 2026.

Reference: Environment Clearance accorded to M/s Nayara Energy Limited vide F. No: J-11011/320/2006-IA-II (I) dated 5th January 2021.

Dear Sir,

This has reference to the Environmental Clearance (EC) issued by Ministry of Environment, Forests & Climate Change, Government of India vide above referred letter. As per General Condition No. (VII) of the Environmental Clearance, we hereby submit our six-monthly compliance status report for the period Oct'25 to Mar'26 for your kind perusal and record please.

Thanking you,

Yours truly,

For, Nayara Energy Limited

Authorized Signatory

Enclosures: EC compliance report for expansion of refinery capacity from 20 MMTPA to 46 MMTPA with Petro-chemical Complex.

Copy to:

EC CONDITIONS COMPLIANCE STATUS OF NAYARA ENERGY LIMITED, VADINAR, GUJARAT

Environment Clearance for Expansion of Refinery capacity from 20 MMTPA to 46 MMTPA with Petrochemical Complex

(Ref.: File No. J-11011/320/2006-IA-II (I) dated 05th January 2021)

Status as on 01st April 2026

Period: October 2025 to March 2026

Sr. No.	Specific Conditions	Current Status
I	The environmental clearance is subject to obtaining prior clearance from the wildlife angle, including clearance from the Standing Committee of the National Board for Wildlife, as applicable, as per the Ministry's OM dated 8 th August, 2019. Grant of environmental clearance does not necessarily imply that Wildlife Clearance shall be granted to the project and that their proposal for Wildlife Clearance will be considered by the respective authorities on its merit and decision taken.	The proposed expansion will take place within the existing refinery premises and adjacent to Petrochemicals Plot and COT Premises only. Scope of work of the Project does not include work in the protected area. Hence, we understand that the subject condition is not applicable.
II	The project proponent shall prepare a site-specific conservation plan and wildlife management plan in case of the presence of Schedule-1 species in the study area, as applicable to the project, and submit to Chief Wildlife Warden for approval. The recommendations shall be implemented in consultation with the State Forest/Wildlife Department in a time bound manner.	Site specific conservation plan covering Schedule-1 species Indian Peafowl has been prepared which has been approved by the Chief Wildlife Warden, Gujarat State. As per the Wildlife conservation Plan, budgetary provision in the tune of INR. 40 Lacs has been made for 10 years period for the activities mentioned in conservation plan at INR. 4 lacs per year for the next 10 years. Details of activities covered under the Conservation plan and cost break-up is included in approved Peafowl conservation plan. Site specific Conservation plan will be implemented upon start of the project execution.

EC CONDITIONS COMPLIANCE STATUS OF NAYARA ENERGY LIMITED, VADINAR, GUJARAT

III	The company shall comply with all the environmental protection measures and safeguards proposed in the documents submitted to the Ministry. All the recommendations made in the EIA/EMP in respect of environmental management, and risk mitigation measures relating to the project shall be implemented.	Project construction is yet to start. We assure to comply with all the environmental protection measures and safeguards proposed in the documents submitted to the Ministry.
IV	The treated effluent of 536.5 MLD Desalination/RO Reject and 36.5 MLD shall be sent for deep sea discharge through diffuser recommended by NIO.	The Project construction is yet to start. We will ensure that total discharge to deep-sea remains within specified limit of total 573 MLD and will be discharged through diffuser recommended by NIO.
V	The National Emission Standards for Petroleum Oil Refinery issued by the Ministry vide G.S.R. 186(E) dated 18th March, 2008 and G.S.R. 595(E) dated 21st August, 2009 as amended from time to time, shall be followed.	The project construction is yet to start. We assure you to comply with the stipulated condition.
VI	Volatile organic compounds (VOCs)/Fugitive emissions shall be controlled at 99.997% with effective chillers/modern technology. For emission control and management, use of FG/NG in heater as fuel, adequate stack height, use of Low NOX burners in heater and boiler, continuous stack monitoring, Sulphur recovery plant, etc. shall be installed/ensured.	The project construction is yet to start. We assure to comply with the stipulated condition.
VII	Total freshwater requirement for the proposed project shall not exceed 724 MLD to be met from Sea water. Necessary permission in this regard shall be obtained from the concerned regulatory authority.	We assure you to comply with the condition. Necessary clearances will be obtained in this regard.
VIII	Process effluent/any wastewater shall not be allowed to mix with storm water. Storm water drain shall be passed through guard pond.	The project construction is yet to start. We assure you to comply with the condition.

EC CONDITIONS COMPLIANCE STATUS OF NAYARA ENERGY LIMITED, VADINAR, GUJARAT

IX	Hazardous chemicals shall be stored in tanks, tank farms, drums, carboys etc. Flame arresters shall be provided on tank farm, and solvent transfer to be done through pumps.	Project construction is yet to start. We assure you to comply with the condition.
X	Process organic residue and spent carbon, if any, shall be sent to cement industries. ETP sludge, process inorganic and evaporation salt shall be disposed off to the TSDF.	The project construction is yet to start. We assure you to comply with the condition. All the hazardous waste will be disposed as per the Hazardous and Other Waste (Management and Transboundary movement) Rules, 2016.
XI	Fly ash should be stored separately as per CPCB guidelines so that it should not adversely affect the air quality, becoming air borne by wind or water regime during rainy season by flowing along with the storm water. Direct exposure of workers to fly ash and dust should be avoided. The ash from boiler shall be sold to brick manufacturers/cement industry.	The condition is not applicable as the subject EC has been granted for expansion of Refinery along with Petrochemical complex.
XII	The company shall undertake waste minimization measures as below: - a. Metering and control of quantities of active ingredients to minimize waste. b. Reuse of by-products from the process as raw materials or as raw material substitutes in other processes. c. Use of automated filling to minimize spillage. d. Use of Close Feed system into batch reactors. e. Venting equipment through vapour recovery system. f. Use of high pressure hoses for equipment clearing to reduce wastewater generation.	Project construction is yet to start. We assure you to undertake measures necessary for waste minimization and other stipulated conditions as applicable to our project.
XIII	The green belt of 5-10 m width shall be developed in the total project area, mainly along the plant periphery, in downward wind direction, and along road sides etc.	Project construction is yet to start.

**EC CONDITIONS COMPLIANCE STATUS OF NAYARA ENERGY LIMITED, VADINAR, GUJARAT**

	The project proponent shall ensure 33% greenbelt area vis-à-vis the project area through afforestation in the degraded area. The Selection of plant species shall be as per the CPCB guidelines in consultation with the State Forest Department.	Total 33% greenbelt area vis-à-vis the project area will be developed.
XIV	The CER allocation shall be spent mainly for addressing the issues raised during public consultation/hearing including medical, education/skill development, potable water supply, solar lights, village roads, and scholarship for higher education, support to farmers and fishermen with better machinery, fodder for cattle, animal husbandry, and other miscellaneous development works etc., and shall be completed within 5 years. The amount proposed if any in CER shall be spent during execution of the project and shall not be linked with the CSR.	Project construction is yet to start. CER amount will be utilized as per the condition.
XV	For the DG sets, emission limits and the stack height shall be in conformity with the extant regulations and the CPCB guidelines. Acoustic enclosure shall be provided to DG set for controlling the noise pollution.	Project construction is yet to start. We assure you to comply with the condition.
XVI	The unit shall make the arrangement for protection of possible fire hazards during manufacturing process in material handling. Firefighting system shall be as per the norms.	We assure you to comply with the condition.
XVII	Continuous online (24x7) monitoring system for stack emissions shall be installed for measurement of flue gas discharge and the pollutants concentration, and the data to be transmitted to the CPCB and SPCB server. For online continuous monitoring of effluent, the unit shall install web camera with night vision capability and flow meters in the channel/drain carrying effluent within the premises. In case of the treated effluent to be utilized for irrigation/gardening, real time monitoring system shall be installed at the ETP outlet.	Project construction is yet to start. Continuous Online (24x7) monitoring system for stack emissions and effluent monitoring have been installed for existing refinery and the data are being transferred to CPCB and SPCB server. The effluent generated from the process units is being received in ETP through closed pipelines. For Online Continuous effluent monitoring, We have installed flow meter at ETP outlet.

EC CONDITIONS COMPLIANCE STATUS OF NAYARA ENERGY LIMITED, VADINAR, GUJARAT

		We will continue the same practices during proposed expansion project also.
XVIII	Occupational health surveillance of the workers shall be done on a regular basis and records maintained as per the Factories Act.	Project construction is yet to start. We assure to comply with the condition.
XIX	Process safety and risk assessment studies shall be further carried out using advanced, models, and the mitigating measures shall be undertaken/implemented accordingly.	Risk assessment study with 3D modeling has been carried out as a part of EIA studies and submitted to MoEF and CC and the mitigation measures will be implemented accordingly.
XX	The PP should improve the efficiency of ETP Plant and the water discharge should be as per prescribed CPCB Norms. They should also install 24x7 hours monitoring system (of the discharge) and the same should be connected to the server of SCPB/CPCB.	Project construction is yet to start. Discharge effluent quality monitoring analyzers have been connected with SPCB / CPCB server for existing refinery. We assure you to comply with the condition for proposed expansion as well.
Sr. No.	General Conditions	Current Status
I	No further expansion or modifications in the plant, other than mentioned in the EIA Notification, 2006 and its amendments, shall be carried out without prior approval of the Ministry of Environment, Forest and Climate Change/SEIAA, as applicable. In case of deviations or alterations in the project proposal from those submitted to this Ministry for clearance, a fresh reference shall be made to the Ministry/SEIAA, as applicable, to assess the adequacy of conditions imposed and to add additional environmental protection measures required, if any.	Project construction is yet to start. We will comply with the provision of EIA Notification, 2006 and amendments made thereunder.
II	The energy source for lighting purpose shall be preferably LED based, or advanced having preference in energy conservation and environment betterment.	We assure you to comply with the condition.

EC CONDITIONS COMPLIANCE STATUS OF NAYARA ENERGY LIMITED, VADINAR, GUJARAT

		We will comply with the provision of EIA Notification, 2006 and amendments made thereunder.
III	The overall noise levels in and around the plant area shall be kept well within the standards by providing noise control measures including acoustic hoods, silencers, enclosures etc. on all sources of noise generation. The ambient noise levels shall conform to the standards prescribed under the Environment (Protection) Act, 1986 Rules, 1989 viz. 75 dBA (day time) and 70 dBA (night time).	Project construction is yet to start. Overall noise levels in and around the plant area will be kept well within the standard by provision of noise control measures. The ambient noise level is being monitored for the existing refinery and will be complied with during the proposed expansion project.
IV	The company shall undertake all relevant measures for improving the socio-economic conditions of the surrounding area. CER activities shall be undertaken by involving local villages and administration and shall be implemented. The company shall undertake eco-developmental measures including community welfare measures in the project area for the overall improvement of the environment.	We assure you to comply with the condition. Project construction is yet to start. Relevant measures for improving the socio-economic conditions of the surrounding area will be undertaken in CER activities as per the details submitted.
V	The company shall earmark sufficient funds towards capital cost and recurring cost per annum to implement the conditions stipulated by the Ministry of Environment, Forest and Climate Change as well as the State Government along with the implementation schedule for all the conditions stipulated herein. The funds so earmarked for environment management/ pollution control measures shall not be diverted for any other purpose.	Project construction is yet to start. We assure you to comply with the condition. Sufficient funds of Capital and recurring cost provision for environment protection measures have been considered and will be utilized for the Environment Management only and will not be diverted for other purposes.
VI	A copy of the clearance letter shall be sent by the project proponent to concerned Panchayat, Zilla Parishad /Municipal Corporation, Urban local Body and the local NGO, if any, from whom suggestions/ representations, if any, were received while processing the proposal.	A copy of the environment clearance letter has been submitted to the District Collector office Jamnagar and Devbhoomi Dwarka. Office copy of the letter is attached herewith as Annexure-1 .

EC CONDITIONS COMPLIANCE STATUS OF NAYARA ENERGY LIMITED, VADINAR, GUJARAT

VII	The project proponent shall also submit six monthly reports on the status of compliance of the stipulated Environmental Clearance conditions including results of monitored data (both in hard copies as well as by e-mail) to the respective Regional Office of MOEFandCC, the respective Zonal Office of CPCB and SPCB, A copy of Environmental Clearance and six monthly compliance status report shall be posted on the website of the company.	Being complied. A copy of EC Compliance report is being submitted to Regional Office of MOEF & CC, the respective Zonal Office of CPCB (Vadodara) and GPCB Head Office (Gandhinagar) via e-mail. Also uploading compliances of EC conditions on PARIVESH portal. A copy of EC Compliance report is also posted on the company website.
VIII	The environmental statement for each financial year ending 31 st March in Form-V as is mandated shall be submitted to the concerned State Pollution Control Board as prescribed under the Environment (Protection) Rules, 1986, as amended subsequently, shall also be put on the website of the company along with the status of compliance of environmental clearance conditions and shall also be sent to the respective Regional Offices of MOEFandCC by e-mail.	Project construction is yet to start. We assure to comply with the condition.
IX	The project proponent shall inform the public that the project has been accorded environmental clearance by the Ministry and copies of the clearance letter are available with the SPCB/Committee and may also be seen at Website of the Ministry and at https://parivesh.nic.in/ . This shall be advertised within seven days from the date of issue of the clearance letter, at least in two local newspapers that are widely circulated in the region of which one shall be in the vernacular language of the locality concerned and a copy of the same shall be forwarded to the concerned Regional Office of the Ministry.	Complied with. The advertisement within seven days from the date of issue of the clearance letter has been published in two local newspapers and has been forwarded to the concerned Regional Office of the Ministry/GPCB. Copy of the intimation to MoEF & CC, Regional Office, Bhopal regarding compliance of the same is attached herewith as Annexure-2.
X	The project authorities shall inform the Regional Office as well as the Ministry, the date of financial closure and final approval of the project by the concerned authorities and the date of start of the project.	Project construction is yet to start. However, Pre Project activities like Detailed Feasibility and Configuration selection for part of the Project scope has been completed. We will inform the date of financial closure and final approval of the project to the Regional Office of the Ministry once Project starts.

EC CONDITIONS COMPLIANCE STATUS OF NAYARA ENERGY LIMITED, VADINAR, GUJARAT

XI	This Environmental clearance is granted subject to final outcome of Hon ble Supreme Court of India, Hon ble High Court, Hon ble NGT and any other Court of Law, if any, as may be applicable to this project.	Noted.

Environment Clearance for Expansion of Refinery capacity from 20 MMTPA to 46 MMTPA with Petrochemical Complex
Additional Conditions for Environment Clearance

(Ref.: GPCB-CCA-JMN-366(25)/ID-27398/685387, Dated; 06/10/2022)

Status as on 01st April 2026

Period: October 2025 to March 2026

Sr. No.	Additional EC Conditions	Current Status
1	M/s. Nayara Energy Ltd. Shall carry out Mangrove afforestation of 100 hectare area before 31/12/2024 at their own cost in nearby areas in consultation with Marine National Park.	100 ha mangrove plantation has been carried out before 31/12/2024 as stipulated. Mangrove afforestation carried out in raised bed model in identified 50-hectare area in Sikka Range and 50 hectare area in Khambhaliya Range of MNP making total 100 hectare Mangrove afforestation. Apart from above under Mangrove Initiative for Shoreline Habitats and Tangible Incomes (MISHTI) scheme we have signed a MOU with Gujarat State Forest Dept to carry out 1000 ha mangrove plantation in the five years (FY 2024-2029). As per the MOU, 100 ha has been plantation carried out in FY 2024-2025 and certificate in this regard is enclosed as Annexure-3 and 100 ha for FY 2025-2026. Pictures of Mangrove Afforestation are given below:

EC CONDITIONS COMPLIANCE STATUS OF NAYARA ENERGY LIMITED, VADINAR, GUJARAT

	  	
2	Marine National Park officials may visit the site for inspection as and when required during the project construction / development phase.	Agreed. Marine National Park officials may visit the site for inspection at any time during project construction and development phase.
3	Awareness Program regarding local flora, fauna, safety, Environment Protection etc. shall be imparted to the local public and School Children once in six month for next five years at their own cost involving Marine national park, Gujarat Pollution Control Board. Indian Coast Guard and District Industrial Safety and Health.	Project construction is yet to start. We assure you to comply with the stipulated condition.
4	The discharge of return seawater shall be monitored on monthly basis by third party NABL accredited laboratory and the report to be submitted six monthly to GPCB.	Project construction is yet to start. We assure to comply with the stipulated condition.
5	M/s. Nayara Energy Ltd. shall undertake rainwater-harvesting measures to recharge the ground water in the refinery area premises.	Six Nos. reservoirs / ponds have been developed within refinery premises for storage and recharging of ground water. Total capacity of these ponds is 6,25,000 m ³ . Four Nos. ground water recharge wells have been made at strategic locations within refinery.

EC CONDITIONS COMPLIANCE STATUS OF NAYARA ENERGY LIMITED, VADINAR, GUJARAT

	  	
6	M/s. Nayara Energy Ltd shall do Geo Hydrological survey within refinery area with detailed database along with required maps and locations.	Geo Hydrological survey has been carried out by third party M/s Groundwater and Mineral Investigation Consultancy Center (P) Ltd. Jaipur. Sampling and analysis of groundwater is completed, and front page of final report has been attached herewith as Annexure-4 .
7	The project authorities must strictly comply with the provisions made in Manufacture, Storage, and Import of Hazardous Chemicals Rules, 1989 and as amended in the year 2000 for handling of hazardous chemicals etc. Necessary approvals from Chief Controller of Explosives must be obtained before commissioning of the project.	Project construction is yet to start. We assure you to comply with the stipulated condition. Necessary approvals from Chief Controller of Explosives will be obtained before commissioning of the project
8	Emergency Response Disaster plan is to be updated and certified through competent authority and shall be complied with.	Project construction is yet to start. Emergency Response Disaster Management Plan (ERDMP) for onsite and offsite has been prepared for existing refinery and will be updated and certified through Competent authority on completion of expansion project.

Dear Sir,

We are pleased to inform you that, M/s Nayara Energy Limited has been accorded Environmental Clearance for Expansion of Refinery Capacity from 20 MMTPA to 46 MMTPA with Petrochemical Complex at Vadinar, Devbhumi Dwarka, Gujarat. The copy of Environmental Clearance is attached herewith as **Annexure-1** for your kind reference.

As per the General Condition no. IX of Environmental Clearance, which states as under:

"The project proponent shall inform the public that the project has been accorded environment clearance by the Ministry and copies of the clearance letter are available with the SPCB/Committee and may also be seen at Website of the Ministry and at <https://parivesh.nic.in/>. This shall be advertised within seven days from the date of issue of the clearance letter, at least in two local newspapers that are widely circulated in the region of which one shall be in the vernacular language of the locality concerned and a copy of the same shall be forwarded to the concerned Regional Office of the Ministry."

Complying with above mentioned condition, we have published advertisement stating grant of Environment Clearance to Expansion of Refinery Capacity from 20 MMTPA to 46 MMTPA with Petrochemical Complex in two local newspapers (Gujarat Samachar & Times of India) dated

Sub: Expansion of Refinery Capacity from 20 MMTPA to 46 MMTPA with Petro-Chemical Complex, M/s Nayara Energy Limited located at Vadinar, District: Devbhumi Dwarka, Gujarat - Consideration of Environment Clearance regarding.

Sir,

This has reference to your online proposal No. IA/GJ/IND2/175608/2018 dated 27th September, 2020 for environmental clearance to the above mentioned project.

2. The Ministry of Environment, Forest and Climate Change has examined the proposal for environmental clearance to expansion of Refinery Capacity from 20 MMTPA to 46 MMTPA with Petro-Chemical Complex, M/s Nayara Energy Limited located at Vadinar, District: Devbhumi Dwarka, Gujarat.

3. The details of products and capacity are as under:

Product Slate for Existing & Proposed Refinery

Sr. No.	Products	Capacity (KTPA)	
		Existing Refinery (20 MMTPA)	Ultimate Refinery (46 MMTPA)
1.	LPG	938	785
2.	Naphtha /MS		
3.	Gasoline	4,200	10,726
4.	SKO/ATF	872	624
5.	Diesel/ HSD	9,706	22,775
6.	Furnace Oil/VGO	220	-
7.	Sulphur	318	1,610
8.	Petcoke	2,247	2,191

4. Total land area available is 22750000 m² (2275 Ha). Existing refinery is in 11710000 m² (1171 Ha) and proposed expansion will be in 11040000 m² (1104 Ha) area. No additional land will be acquired. Industry has already developed 410 Ha greenbelt areas for existing refinery and will develop 340 Ha for the proposed project; the total green belt area after proposed expansion will be 750 Ha which will be 33 % of total 2275 Ha project area. The estimated project cost of proposed expansion (Refinery plus petro chemical complex) is Rs. 1,30,000 Cr. Total capital cost earmarked towards environmental pollution control measures is Rs. 3923 Cr for expansion and the Recurring cost (operation and maintenance) will be about Rs. 30.4 Cr. per annum. Total Employment will be 2000 persons as direct & 12000 - 15000 persons indirect during expansion. Industry proposes to allocate Rs 74.58 Cr for next

Signature

five years towards Corporate Social Responsibility however the budget numbers may vary depending on company's year on year financial performance.

5. Total water requirement of 928 MLD will be met from Sea Water which includes 204 MLD for existing and 724 MLD for proposed expansion project. Effluent of 93 MLD quantity will be treated through effluent treatment plant and entire treated effluent will be utilized for service water, fire water make up, RO feed and horticulture. 536.5 MLD Desalination/RO Reject & 36.5 MLD sea water based cooling tower blow down will be sent for deep sea discharge through diffuser recommended by NIO.
6. Power requirement after expansion will be 927 MW including existing 160 MW and will be met from CPP (Captive Power Plant). Existing unit has 27 DG sets of (125 kVA to 2000 kVA) capacity, additional 50 DG sets (125 kVA to 2000 kVA) will be used as standby during power failure. Stack (vary between 6 to 30 m) will be provided as per CPCB norms to the proposed DG sets.
7. The project/activity is covered under category A of items 4(a) "Petroleum Refining Industry", 5(c) "Petro-chemical complexes" of the Schedule the Environment Impact Assessment (EIA) Notification, 2006 and requires appraisal at Central Level by the Expert Appraisal Committee (EAC) in the Ministry.
8. The project proposal was considered by the Expert Appraisal Committee (Industry-2) in its 38th meeting held during 25-27th June 2018 and recommended Terms of References (ToR) for the Project. The ToR has been issued by Ministry vide letter No. J-11011/320/2006-IA-II(I); dated 03/08/2018.
9. The proposal was considered by the EAC in its 24th meeting held on 19th October, 2020 in the Ministry, wherein the project proponent and their consultant M/s. National Environmental Engineering Research Institute presented made a detailed presentation on the salient features of the project.
10. The EAC, constituted under the provision of the EIA Notification, 2006 and comprising of Experts Members/domain experts in various fields, have examined the proposal submitted by the Project Proponent in desired form along with PFR report prepared and submitted by the Consultant accredited by the QCI/ NABET on behalf of the Project Proponent. The EAC noted that the Project Proponent has given undertaking that the data and information given in the application and enclosures are true to the best of his knowledge and belief and no information has been suppressed in the PFR report. If any part of data/information submitted is found to be false/ misleading at any stage, the project will be rejected and Environmental Clearance given, if any, will be revoked at the risk and cost of the project proponent.
11. The Committee noted that the EIA/EMP report is in compliance of the ToR issued for the project, reflecting the present environmental concerns and the projected scenario for all the environmental components. The Committee has found the baseline data and incremental GLC due to the proposed project within NAAQ standards. The Committee has also deliberated on the CER plan and found to be addressing the issues in the study area. Certified report on compliance of existing EC conditions also found to be satisfactory. The Committee also found the additional studies and information submitted and presented by the project proponent to be satisfactory. The EAC has deliberated the proposal and has made due diligence in the process as notified under the provisions of the EIA Notification, 2006, as amended from time to time and accordingly made the recommendations to the proposal. The Experts Members of the EAC have found the proposal in order and have recommended for grant of environmental clearance.

12. The environmental clearance granted to the project/activity is strictly under the provisions of the EIA Notification 2006 and its amendments. It does not tantamount/construe to approvals/consent/ permissions etc. required to be obtained or standards/conditions to be followed under any other Acts/ Rules/ Subordinate legislations, etc., as may be applicable to the project. The project proponent shall obtain necessary permission as mandated under the Water (Prevention and Control of Pollution) Act, 1974 and the Air (Prevention and Control of Pollution) Act, 1981, as applicable from time to time, from the State Pollution Control Board, prior to construction & operation of the project.

13. Based on the proposal submitted by the project proponent and recommendations of the EAC (Industry-2), Ministry of Environment, Forest and Climate Change hereby accords environmental clearance to the project for **expansion of Refinery Capacity from 20 MMTPA to 46 MMTPA with Petro-Chemical Complex, M/s Nayara Energy Limited located at Vadinar, District: Devbhumi Dwarka, Gujarat**, under the provisions of the EIA Notification, 2006, and the amendments therein, subject to compliance of the terms and conditions as under:-

A. Specific Conditions:

- (i). The environmental clearance is subject to obtaining prior clearance from the wildlife angle, including clearance from the Standing Committee of the National Board for Wildlife, as applicable, as per the Ministry's OM dated 8th August, 2019. Grant of environmental clearance does not necessarily imply that Wildlife Clearance shall be granted to the project and that their proposal for Wildlife Clearance will be considered by the respective authorities on its merit and decision taken.
- (ii). The project proponent shall prepare a site specific conservation plan and wildlife management plan in case of the presence of Schedule-1 species in the study area, as applicable to the project, and submit to Chief Wildlife Warden for approval. The recommendations shall be implemented in consultation with the State Forest/Wildlife Department in a time bound manner.
- (iii). The company shall comply with all the environmental protection measures and safeguards proposed in the documents submitted to the Ministry. All the recommendations made in the EIA/EMP in respect of environmental management, and risk mitigation measures relating to the project shall be implemented.
- (iv). The treated effluent of 536.5 MLD Desalination/RO Reject & 36.5 MLD shall be sent for deep sea discharge through diffuser recommended by NIO.
- (v). The National Emission Standards for Petroleum Oil Refinery issued by the Ministry vide G.S.R. 186(E) dated 18th March, 2008 and G.S.R.595(E) dated 21st August, 2009 as amended from time to time, shall be followed.
- (vi). Volatile organic compounds (VOCs)/Fugitive emissions shall be controlled at 99.997% with effective chillers/modern technology. For emission control and management, use of FG/NG in heater as fuel, adequate stack height, use of Low NOX burners in heater & boiler, continuous stack monitoring, Sulphur recovery plant, etc. shall be installed/ensured.
- (vii). Total fresh water requirement for the proposed project shall not exceed 724 MLD to be met from Sea water. Necessary permission in this regard shall be obtained from the concerned regulatory authority.
- (viii). Process effluent/any wastewater shall not be allowed to mix with storm water. Storm water drain shall be passed through guard pond.

- (ix). Hazardous chemicals shall be stored in tanks, tank farms, drums, carboys etc. Flame arresters shall be provided on tank farm, and solvent transfer to be done through pumps.
- (x). Process organic residue and spent carbon, if any, shall be sent to cement industries. ETP sludge, process inorganic & evaporation salt shall be disposed off to the TSDF.
- (xi). Fly ash should be stored separately as per CPCB guidelines so that it should not adversely affect the air quality, becoming air borne by wind or water regime during rainy season by flowing along with the storm water. Direct exposure of workers to fly ash & dust should be avoided. The ash from boiler shall be sold to brick manufacturers/cement industry.
- (xii). The company shall undertake waste minimization measures as below: -
- Metering and control of quantities of active ingredients to minimize waste.
 - Reuse of by-products from the process as raw materials or as raw material substitutes in other processes.
 - Use of automated filling to minimize spillage.
 - Use of Close Feed system into batch reactors.
 - Venting equipment through vapour recovery system.
 - Use of high pressure hoses for equipment clearing to reduce wastewater generation.
- (xiii). The green belt of 5-10 m width shall be developed in the total project area, mainly along the plant periphery, in downward wind direction, and along road sides etc. The project proponent shall ensure 33% greenbelt area vis-à-vis the project area through afforestation in the degraded area. The Selection of plant species shall be as per the CPCB guidelines in consultation with the State Forest Department.
- (xiv). The CER allocation shall be spent mainly for addressing the issues raised during public consultation/hearing including medical, education/skill development, potable water supply, solar lights, village roads, and scholarship for higher education, support to farmers & fishermen with better machinery, fodder for cattle, animal husbandry, and other miscellaneous development works etc., and shall be completed within 5 years. The amount proposed if any in CER shall be spent during execution of the project and shall not be linked with the CSR.
- (xv). For the DG sets, emission limits and the stack height shall be in conformity with the extant regulations and the CPCB guidelines. Acoustic enclosure shall be provided to DG set for controlling the noise pollution.
- (xvi). The unit shall make the arrangement for protection of possible fire hazards during manufacturing process in material handling. Firefighting system shall be as per the norms.
- (xvii). Continuous online (24x7) monitoring system for stack emissions shall be installed for measurement of flue gas discharge and the pollutants concentration, and the data to be transmitted to the CPCB and SPCB server. For online continuous monitoring of effluent, the unit shall install web camera with night vision capability and flow meters in the channel/drain carrying effluent within the premises. In case of the treated effluent to be utilized for irrigation/gardening, real time monitoring system shall be installed at the ETP outlet.
- (xviii). Occupational health surveillance of the workers shall be done on a regular basis and records maintained as per the Factories Act.

81-2

- (xix). Process safety and risk assessment studies shall be further carried out using advanced models, and the mitigating measures shall be undertaken/implemented accordingly.
- (xx). The PP should improve the efficiency of ETP Plant and the water discharge should be as per prescribed CPCB Norms. They should also install 24x7 hours monitoring system (of the discharge) and the same should be connected to the server of SCPB/CPCB.

13.1. General conditions:

- (i) No further expansion or modifications in the plant, other than mentioned in the EIA Notification, 2006 and its amendments, shall be carried out without prior approval of the Ministry of Environment, Forest and Climate Change/SEIAA, as applicable. In case of deviations or alterations in the project proposal from those submitted to this Ministry for clearance, a fresh reference shall be made to the Ministry/SEIAA, as applicable, to assess the adequacy of conditions imposed and to add additional environmental protection measures required, if any.
- (ii) The energy source for lighting purpose shall be preferably LED based, or advanced having preference in energy conservation and environment betterment.
- (iii) The overall noise levels in and around the plant area shall be kept well within the standards by providing noise control measures including acoustic hoods, silencers, enclosures etc. on all sources of noise generation. The ambient noise levels shall conform to the standards prescribed under the Environment (Protection) Act, 1986 Rules, 1989 viz. 75 dBA (day time) and 70 dBA (night time).
- (iv) The company shall undertake all relevant measures for improving the socio-economic conditions of the surrounding area. CER activities shall be undertaken by involving local villages and administration and shall be implemented. The company shall undertake eco-developmental measures including community welfare measures in the project area for the overall improvement of the environment.
- (v) The company shall earmark sufficient funds towards capital cost and recurring cost per annum to implement the conditions stipulated by the Ministry of Environment, Forest and Climate Change as well as the State Government along with the implementation schedule for all the conditions stipulated herein. The funds so earmarked for environment management/ pollution control measures shall not be diverted for any other purpose.
- (vi) A copy of the clearance letter shall be sent by the project proponent to concerned Panchayat, Zilla Parishad/Municipal Corporation, Urban local Body and the local NGO, if any, from whom suggestions/ representations, if any, were received while processing the proposal.
- (vii) The project proponent shall also submit six monthly reports on the status of compliance of the stipulated Environmental Clearance conditions including results of monitored data (both in hard copies as well as by e-mail) to the respective Regional Office of MoEF&CC, the respective Zonal Office of CPCB and SPCB. A copy of Environmental Clearance and six monthly compliance status report shall be posted on the website of the company.
- (viii) The environmental statement for each financial year ending 31st March in Form-V as is mandated shall be submitted to the concerned State Pollution Control Board as prescribed under the Environment (Protection) Rules, 1986, as amended subsequently, shall also be put on the website of the company along with the status of compliance of environmental clearance conditions and shall also be sent to the respective Regional Offices of MoEF&CC by e-mail.

87-✓

environmental clearance by the Ministry and copies of the clearance letter are available with the SPCB/Committee and may also be seen at Website of the Ministry and at <https://parivesh.nic.in/>. This shall be advertised within seven days from the date of issue of the clearance letter, at least in two local newspapers that are widely circulated in the region of which one shall be in the vernacular language of the locality concerned and a copy of the same shall be forwarded to the concerned Regional Office of the Ministry.

- (x) The project authorities shall inform the Regional Office as well as the Ministry, the date of financial closure and final approval of the project by the concerned authorities and the date of start of the project.
- (xi) This Environmental clearance is granted subject to final outcome of Hon'ble Supreme Court of India, Hon'ble High Court, Hon'ble NGT and any other Court of Law, if any, as may be applicable to this project.

14. The Ministry reserves the right to stipulate additional conditions, if found necessary at subsequent stages and the project proponent shall implement all the said conditions in a time bound manner. The Ministry may revoke or suspend the environmental clearance, if implementation of any of the above conditions is not found satisfactory.

15. Concealing factual data or submission of false/fabricated data and failure to comply with any of the conditions mentioned above may result in withdrawal of this clearance and attract action under the provisions of Environment (Protection) Act, 1986.

16. Any appeal against this environmental clearance shall lie with the National Green Tribunal, if preferred, within a period of 30 days as prescribed under Section 16 of the National Green Tribunal Act, 2010.

17. The above conditions will be enforced, inter-alia under the provisions of the Water (Prevention & Control of Pollution) Act, 1974, the Air (Prevention & Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, the Hazardous Waste (Management, Handling and Transboundary Movement) Rules, 2016 and the Public Liability Insurance Act, 1991 read with subsequent amendments therein.

18. This issues with the approval of the competent authority.
