

Nayara Energy is a downstream company of international scale with strong presence across the hydrocarbon value chain from Refining to Retail.

Nayara Energy owns and operates India's second largest single site Refinery at Vadinar, Gujarat with a capacity of 20MMTPA. It is one of the world's most modern and complex refineries with a complexity index of 11.8, amongst the highest globally. With over 6,000 operational retail outlets, Nayara Energy owns the fastest growing private fuel retail network in the country.

Nayara Energy aims to build one of the largest integrated Petrochemical complexes in the country. With Nayara Energy's strategically integrated Refinery complex in western India, including captive port and power assets, the Company is well positioned to make a strong entry into this high growth segment. Under Phase-1 of its petrochemical expansion project, Nayara Energy is setting up a 450 KTPA capacity Polypropylene plant within its Vadinar Refinery in Gujarat. Phase-1 project development is expected to be commissioned by FY 2024.

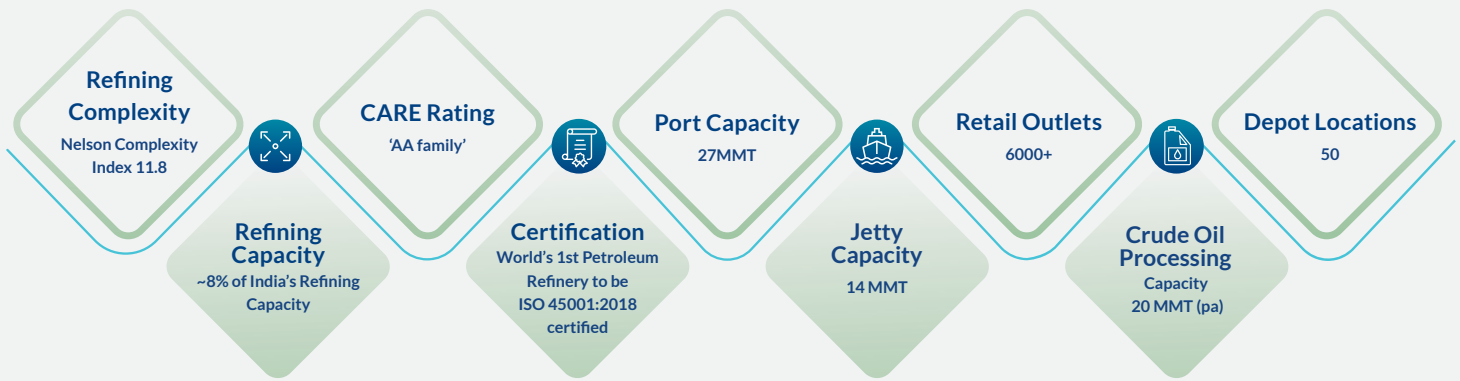

OUR VALUES:

Our EXCEL values propel us to shape a better tomorrow, today. Keeping curiosity, innovation and energy at the heart of everything that we do, we view every challenge as a new possibility.

OUR CAPABILITIES:

OUR CSR INITIATIVES:

Building a better world is at the heart of who we are. At Nayara Energy, we are committed to sustainable development by delivering economic, social and environmental benefits to the communities in which we operate. We are leveraging our experience and expertise to build holistic programs in the areas of Sustainable Livelihoods, Health & Sanitation and Education that deliver stronger and more inclusive impact.

Health and Nutrition

Education

Livelihood

OUR SAFETY MISSION:

Health, Safety and Environment (HSE) is a key priority for Nayara Energy. We are committed to provide safe operations and workplaces, to protect the health and safety of our employees and contractors, as well as to mitigate the environmental impact of our operations.

OUR CORE:

Refinery

Operating one of India's most modern and complex refineries which is supported by end-to-end captive infrastructure including SBM (Single Buoy Mooring), crude oil tanker facility, water, intake facilities, multi-fuel power plant, product jetty and dispatch facilities (rail, road and sea)

Trading

Maximizing GRM by timing the market movements for procuring value additive crude and other feedstock. Exporting surplus product, managing commodity risks, and ensuring uninterrupted supply of feedstock along with optimising our crude slate to product mix via efficient utilisation of Refinery units

Marketing

The largest private fuel retail network with over 6000 outlets and 50 supply locations across the country. Managing supply and distribution of our products in the domestic retail and institutional as well as international markets

Asset Development

Developing and implementing major projects in line with our corporate growth strategy. Evaluating opportunities in the refining and petrochemical areas including development of partnerships to diversify our portfolio of products
