

Nayara Energy launches Project Tushti in partnership with Government of Gujarat to make Devbhumi Dwarka under-nutrition free

September 18, 2019, Gandhinagar: Nayara Energy, an integrated downstream company, today announced the launch of Project Tushti. Furthering the company's commitment to the communities, the project strives to make Devbhumi Dwarka district under-nutrition free. The initiative was launched by Hon. Chief Minister Shri Vijay Rupani, Government of Gujarat in Gandhinagar.

The company which operates country's second largest single-site refinery in the region has played a pivotal role in improving quality of life of the communities through several sustainable development projects in areas of health and nutrition, education and environment. At the 2019 Vibrant Gujarat Summit, Nayara Energy and Government of Gujarat joined hands to collaborate for a Public-Private Partnership with an endeavour to make Devbhumi Dwarka under-nutrition free.

Devbhumi Dwarka has been the cornerstone of Nayara Energy's existence since the time the foundation of the refinery was laid in Vadinar. Project Tushti aims to improve the levels of nutrition in Devbhumi Dwarka, contributing to the overall progress of the region.

Nayara Energy, along with its implementation partners, JSI R&T India Foundation and Indian Institute of Public Health – Gandhinagar (IIPHG), will work closely with the Integrated Child Development Services Scheme (ICDS) and Department of Women & Child Development (DWCD). Project Tushti will strengthen the district's nutrition indicators by leveraging Health and Wellness centres through technology and new-age delivery mechanisms.

About Nayara Energy

Nayara Energy is a new-age downstream company of international scale with strong presence across the hydrocarbon value chain from refining to retail. In August 2017, the company was acquired by international investors, Rosneft and an investment consortium comprising of global commodity trading firm, Trafigura and UCP Investment Group. The company owns and operates India's second largest single site refinery at Vadinar, Gujarat with a current capacity of 20MMTPA. The refinery is one of the world's most modern and complex refineries with a complexity of 11.8, which is amongst the highest globally.
